

## WE BUILD CONNECTED, INTELLIGENT SYSTEMS

### Contact

Intelligence Built for Reality.

PYXON connects AI, IoT, cybersecurity, and cloud-native DevOps modernization into one secure fabric that powers buildings, fleets, and public services across the MEA region.

A regional technology partner headquartered in Riyadh, helping governments and enterprises across the MEA region turn complex infrastructure into intelligent, connected systems. We bring together AI, IoT, cybersecurity, and cloud-native modernization to power real operations in buildings, fleets, and public services. Our focus is on clear business outcomes – efficiency, safety, and growth – not technology for its own sake.

### Years Experience

### Strategy to Operations

PYXON is the partner turning AI, IoT, and cloud into real competitive advantage – not just concepts.

Integrated AI, IoT, cybersecurity, and cloud-native services that turn complex operations into connected, intelligent systems—helping organizations modernize securely, boost efficiency, and unlock new opportunities for growth.

From AI consulting to machine learning and predictive analytics — we turn your data into actionable insights and automated workflows.

Smart buildings, energy management, healthcare tracking, and logistics — we connect devices, systems, and people on one secure platform.

AI-driven cybersecurity platform with unified threat detection, compliance automation, and real-time risk monitoring.

End-to-end Microsoft Dynamics 365, Power Platform, and RPA solutions that modernize your operations and reduce costs by up to 70%.

Industry-focused expertise turning complex operations into intelligent, connected systems across the MEA region.

Secure digital services and smarter citizen experiences  
Data-driven classrooms and safer school journeys  
Real-time visibility for patients, staff, and critical assets

Predictive operations with less downtime and higher output  
Energy-optimized, responsive, and sustainable facilities  
Connected fleets, optimized routes, and safer journeys  
Compliant, intelligent, always-on digital operations

Helping organizations operate smarter, safer, and at scale across the MEA region.

A culture of curiosity, ownership, and impact — where engineers, architects, and problem-solvers work on real AI, IoT, and cyber challenges across the MEA region.
